## **COTTON MARKETS**

### Market Reflects Confused Sentiment Over Weather and Trade Conditions.

Monday Afternoon, May 10.

Traders in the cotton market were divided today as to whether to give most attention to the weather news or to reports from trade circles, but a significan lack of selling was noted. Weather was better over the week-end than it has been, but fears of more rains coming within the next day or so discourdanced the company of the control of

erial.
Finals were very steady and from : points off to 13 up in New York, while New Orleans closed steady and un-changed to 19 points up. Liverpool should be 2 to 17 points up

omorrow. Weather over Sunday in the belt was favorable as a rule; although some heavy rains fell in Northeastern Texas which were not needed. Those which which were not needed. Those which fell elsewhere in the state, however, heavy enough to answer all needs for the time being, offered some offset and encouraged liquidation. Some rains in Oklahoma were favorable, but the rost of the beit was without any, and naturally sent more optimistic reports. The presence of a big low barometer area just northwest of the beit, with promise of bringing more rains for the belt within the next day or so, confirmed by the official forecast, furnished occasion for the support which the market received. Sentiment was influenced considerably thereby, and it seemed to be given more weight than reports from trade circles.

siderably thereby, and it seemed to be given more weight than reports from trade circles.

Liverpool was worse than expected, cables attributing it to the character of weather news over Sunday. Finals were steady and 3 to 69 points net to the bad. Spots were off only a point, fully middling to 27.87d, with sales 5.000 bales, including 4.400 American. Receipts for the day were 24.000 bales, including 20.9000 American.

At the opening July in New York was up 7 points, at 38.25c, while October opened 10 points off at 35.70c. Temporary steadiness was followed by a moderate dup, July going to 37.89c and October to 35.40c, the low for the day, but weather prospects stimulated recovery, which carried prices near to the early highs. The fail months wre teen stimulated by more crop and weather news, but in the early afternoon dipped again when the reports of orders being canceled came, only to see a recovery before the close, which carried October right at the finish to the highest level of the day. It sold at 35.98c. The near months did not show much snap.

From the spot department came advices telling of little activity although sales in New Orleans totaled 4.000 bales, middling remaining unchanged at 40.25c. Memphis sold only 250 bales. Little Rock 267. Dallas 768, Houston 4 and Augusta 1,015.

The census report on April consumption is expected within a few days and will probably be encouraging to the

Augusta 1,015.

The census report on April consumption is expected within a few days and will probably be encouraging to the buils in that it will probably show reduction in spinners' stocks. The holders of spots are looking to this possibly to stimulate demand, although local people who have recently been in New Eng. who have recently been in New Eng-land say the mills are going to defer their buying just as long as possible, taking the lower grades when they find it impossible to get the other, and when they must use them or cut down run-ning of their mills.

### 3 to 69 points NEW YORK COTTON.

NEW YORK May 10 —Reports of favorable weather in the few crop mouths. The opening was steady at an advance of 7 to 14 points on the old crop positions, while the week length is blower and son sold 35 to 49 points below for a favorable weather in the morning or 29 points net lower. Three was stirll be points net lower. The points net lower. The opening was steady at the points of the points o

some 13 to 20 points below last night's closing figures. Private cables reported general selling in Liverpool on the better weather news from the south. Trading was very quiet during the early afternoon with prices ruling steady around 38.17c for July and 35.82c for October, or about Saturday's closing figures. There was some buying by New Orleans on the rally which was accompanied by bullish private crop advoces and talk of too much rain in some Southwestern sections.

## NEW ORLEANS COTTON.

NEW ORLEANS, May 10 .- An irreg lar market developed in cotton today ular market developed in cotton today. After a hesitating opening there was a fail of 15 to 39 points on fairly good weather conditions over the belt, but from this there was a recovery in which July led, that month rising to 28.10c, or 10 points over Saturday's close, at the end of the first hour of trading. Other months stood 16 to 24 points under Saturday's close, October trading at 35.45c. Some of the strength of July appeared to be due to undoing of straddles in which July was bought and October sold.

sold.

The forecast of showers for almost all sections of the belt was regarded as unfavorable for, while showers would be benefit in some parts of Texas they would be detrimental nearly everywhere.

would be detrimental nearly everywhere else, according to the opinion generally held. Late in the morning prices were 3 points under to 23 points over the close of last week, July trading up to 38.23.

The demand continued until prices were at net advances of 12 to 27 points, but late in the day reports of widespread cancellations of orders booked by mills for finished goods were received from mill centers and the market fell off to levels 5 points over to 8 points under the close of last week.

Spots closed quiet and unchanged, ordinary 23.00c; good ordinary, 25.00c; low middling, 31.25c; middling, 40.25c; good middling, 44.25c. Sales on the spot, 3.95c; to arrive, 50. Delivered on contract, 100.

Futures closed steady and unchanged to advance of 19 points.

Improved Banking Situation Gives Tone to Stocks in No weakness in spots.

Waco, Tex. wires Now have enough moisture in state to germnate seed and start growth, but will need additional rains next fortnight. Waco south probably two to three weeks late, southern nortion state week later than north, demand poor for lower grades, and not quite so brisk for better grades and staples, "Fenner & Beane to Gustafson." Early Trading.

NEW YORK, May 10.—Improvement in the local bank situation as indicated by last Saturday's returns of the clearing house and federal reserve bank, contributed measureably to the firmer tone of stocks at the opening of today's trading. The only noteworthy reversal was sustained by 'funcible Steel, which forfeited a pair of its recent substantial rally. Rulls, shippings, motors and coppers shared almost equally in the early gains which ranged from 1 to 12 points. Oils were hexiant, reflecting latest news from Mexico.

An irregular extension of the advance occurred at midday, the oils, Reading and American Woolen showing particular strength. Moderale pressure was exerted against other industrials, however, when United States Steel failed to respond to its further gain of unfilled tonnage.

The closing was heavy. Sales approximated \$50,000 shares.

## **MEMPHIS MARKETS**

Groceries.

New York - Manchester advices con-tinue unsatisfactory and so do those from our domeste centers. Preate esti-tores the April consumption at 248,000 bales vs. 576,000 in March. Spec-use our our tig in most times of busi-tress is decreasing and general eco-nomics being observed while results are being curtailled - Fallon to S. & G. Dallas wires Sears Roebuck let our 300 people here asturday Fenner & Beane,

New York.—Weather map over Sunday in belt was good and the forecast for the week is for seasonabel temperatures with occasional showers. The labor outlook in the New England cotton mills is not at all satisfactory. Liverpool is sharply lower. In commercial centers business has taken a sudden hange for the worse, and some rether stensive price cutting may follow. This makes the market outlook rather doubtful and further declines are likely.—Etcleson to Clark & Co.

New York.—Small market, scattered

New York.—Small market, scattered utside liquidation, but locals buying n idea no Southern selling and there-ore will recover.—Hustace Hubbard to showers east after T esday. Gwathmes advises purchases substantial breaks.— Cleve to Cotter & Turner.

ROUND THE TICKER

Cotton.

Augusta, Ga., wires: All crops up 6 erfect stand, weather clear and hor o weakness in spots.

Taylor, Tex.-One inch rain this norning; indications for more

New Orleans — West Point, Miss, wires: Outlook for crop poorest in history. Returns indicate average condition of crop 69.2. Much replanting will have to be done. Acreage will be less than 1919 by 10 to 20 per cent. East of river, lands water soaked.—

Beer.

New York Journal of Commerce says:
"Trade interests wanted May and JulySome predict interesting developments
yet in the July delivery. The new crop
on the whole is tied, to the weather
stake. It does not go down and stay
down with weather so backward. Not
a few think cotton position is inherently strong. They deny that cotton
prices are inflated, therefore, they contend defiation should not affect cotton.
Spinners can, it is urged, pay 16 cents
a pound or more above present prices
and still make a good profit.

New York.—The cotton market is be-

New York —The cotton market is be-tinning to reflect the unusual money onditions existing over the country continue to advise caution and believe ontinue to advise caution and ales on all bulges advisable.—Weisman

New Engand.

New Orleans.—Census April consumption report for United States 14th instant. likely to be builtish. Returns will compare with 476,000 baies line, 11,000 linters, total of 487,000 bast year. Total for March this year was 604,000, of which 576,000 were lint, linters, 28,000.

New Orleans.—Buying on government forecasts for unsettled, showers Arkau-sus, Alabams, Louistana, Missisaippi – Kofier to Clark & Co.

Chicago.—It is reported that \$1.88 to \$1.30 high for eash corn at Illinois points May shipment. This makes the July delivery look cheap.—Babcock to Clark & Co.

New York exporters wire that France and United Kingdom are bidding big figures for lots of 400,000 to 500,000 bu-wheat—Shepard & Gluck

Crain.

Chicago. The weather map is all that could be desired and corn farket should start lower, but volume of revelyts is more important than the growing crop. There is still more or less of a shortage in the May delivery that must be cleaned up. We doubt the advisability of following declines until cash market shows easy tone. T. & M.

CHICAGO.—Commission demand is following the advance in corn and offerings do not increase. The lack of pressure remains the important thing.—Bahcock to Clark & Co.

Chicago.—Perfect weather over entire

EAST ST. LOUIS May 10 — Cattle: Receipts, 4,500; steady to lower top theers, \$13.00 bulk, \$11 out:12.75 yearl-ng steers and hefters fairly steady; samer cows steady, \$4.50\(\text{f}\) 5.25; bulk thd calves steady good and choice realers \$12.005/13.00.

Chicago — A leading brand of hard spring wheat flour has been advanced \$3 per barrel at Minneapolis to the biasis of \$15,90 in carlots; Chicago price unchanged, but expected to be lifted to-day — Ticker.

## Stocks.

New York.—To the student of busi-ness there is much of interest in the Sunday papers. The long predicted a-cline in commodity prices is mallonger a theory, it is a reality. So far as comparatively few lines have been af-fected. Reports from show manufac-New York—Volume so far not ver-inge, activity in Mexican oil stocks considered the revolution there
